

BU.hack()

ABOUT

BU.hack(2019) is the first intercollegiate hackathon of BU.hack()

Hosted at the Bennett Hatchery in Bennett University, the hackathon is sure to provide the Ivy League Edge

The vision is to create a positive, result oriented, and inclusive community at and around Bennett

BU.hack() aims to be an enabler, enabling everyone involved to be the best they can and to do the best can

Every activity of BU.hack() aims to inspire and provoke thought for the community at large

THEME

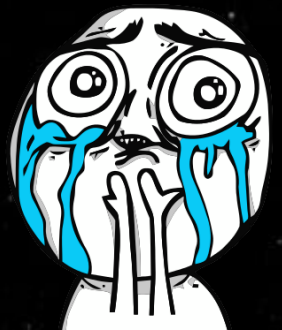

The theme for BU.hack(2019) is memes
and, by extension, the internet and
its technologies

Memes are a communication media that
crosses boundaries and classes;
Everyone can meme!

Memes are truly inclusive and non
judgmental and, perhaps, hold the key
to changing the world

Memes can be funny, relatable, cringy,
or just shits 'n giggles
They, however, always offer a unique
perspective into everyday absurdities
